How to Optimize Human-Machine Work Combinations Your organization has made the decision to adopt automation and artificial intelligence technologies. Now, you face difficult and stubborn questions about how to implement that decision: How, when, and where should we apply automation in our organization? Is it a stark choice between humans versus machines? How do we stay on top of these technological trends as work and automation continue to evolve? Work and human capital experts Ravin Jesuthasan and John Boudreau present leaders with a new set of tools to answer these daunting questions. Transcending the endless debate about humans being replaced by machines, Jesuthasan and Boudreau show how smart leaders instead are optimizing human-automation combinations that are not only more efficient but also generate higher returns on improved performance. Based on groundbreaking primary research, **Reinventing Jobs** provides an original, structured approach of four distinct steps--deconstruct, optimize, automate, and reconfigure--to help leaders reinvent how work gets bundled into jobs

and create optimal human-machine combinations. Jesuthasan and Boudreau show leaders how to continuously reexamine what a job really is, and they provide the tools for identifying the pivotal performance value of tasks within jobs and how these tasks should be reconstructed into new, more optimal combinations. With numerous examples and practical advice for applying the four-step process, *Reinventing Jobs* gives leaders a more precise, planful, and actionable way to decide how, when, and where to apply and optimize work automation. Written by Fortune 100 executive Dan Gallagher, *The Self-Aware Leader* is a unique approach on how to become a more effective leader by increasing self-awareness in four pillars of leadership. By integrating the concepts of reinvention, servant leadership, and business transformation into a single framework that has been validated in research, *The Self-Aware Leader* emphasises taking a calculated approach to change rather than merely reacting to change. *The Self-Aware Leader* also helps readers recognise three basic truths which are crucial to success within organisations: approaches to management have a shelf life; middle managers are frequently caught between "a rock and a hard place"; and, with conservatism on the rise, becoming and remaining an effective leader is extremely complex. This book offers two key takeaways: 1) a new mental framework on leadership more appropriate for today's business conditions; and 2) a functional, practical plan for putting the newly learned concepts presented into daily practice. "Readers learn six characteristics that show them how to go beyond diversity. These characteristics are about the power of diverse thinking to create inclusive 21st century leadership and develop a new mindset and paradigm shift to what businesses need for renewal, reinvention, and survival"-- In this follow-up book to *Strictly Inspirational*, Camilla Sacre-Dallerup presents a clear, accessible motivational programme that focuses on reinvention. Using her tried-and-tested tools, Camilla will show you that anyone can reinvent themselves, just as she has. "Camilla is the real deal: someone who has overcome adversity and simply wants to share what she's learned so others might do the same." Mail on Sunday

In 2008, at the top of her game as a professional dancer, Camilla left *Strictly Come Dancing*. Today, although she still dances, she has undergone her own career reinvention. Having trained as a life coach, Camilla is now a motivational speaker, hypnotherapist and meditation teacher. *Reinvent Me* is a complete 8-part programme created by Camilla to help anyone who is considering reinventing any part of their life. In each part you will find exercises and tools, examples from Camilla's own life, success stories from other people and a section on overcoming barriers. Each chapter ends with an affirmation for you to use as you complete each part of the programme. Work through the programme at your own pace and see your transformation unfold. The Reinvent Me Programme in a Nutshell: R = Recognize: work out where you are and where you need to be currently E = Ego: learn how to free yourself from ego-based decisions I = Innovation: plan what action you need to take to start turning your dream into a reality N = Now: stop procrastinating and start taking action V = Visualize: visualize your reinvented life and find the courage within to start your new adventure E = Evolve: learn to go with the flow of life and become more you N = Nurture: discover why it's essential to nurture your talents and yourself as you go through the process of reinvention T = Transformation: commit to your reinvention and embrace your new you. Companies, communities, and individuals fail for many reasons, but one of the most common—and easily avoidable—is the failure to reinvent. When people and organizations rest on prior successes rather than driving purposeful transformation, they discover too late that they have lost their market position altogether to competitors and external forces. The most successful companies, brands, and individuals make reinvention a regular part of their business strategies. Transformation demands an ongoing process of discovery and imagination, and *The Road to Reinvention* lays out a systematic approach for continually challenging and reinventing yourself and your business. Venture capitalist and serial entrepreneur Josh Linkner identifies six elements in any business that are ripe for reinvention and shares examples, methods, and step-by-step techniques for creating deliberate, productive disruption. Throughout *The Road to Reinvention*, Linkner also explores the history—the great rise, unprecedented fall, and now rebirth—of his beloved hometown, Detroit. First rising to greatness as the result of breathtaking innovation, Detroit

had generations of booming growth before succumbing to apathy, atrophy, and finally bankruptcy. Now, the city is rising from the ashes and driving sustainable success through an intense focus on reinvention. Linkner brings an insider's view of this incredible story of grit, determination, and creativity, sharing his perspective on Detroit's successes and setbacks as a profound example of large-scale organizational and personal transformation. Change is inevitable. You need to decide: Will you drive that change, or be driven away by it? Will you disrupt or be disrupted? The #1 New York Times bestselling author of Never Eat Alone redefines collaboration with a radical new workplace operating system in which leadership no longer demands an office, an official title, or even a physical workplace. "An actionable methodology for any team to thrive during the decade of exponential change ahead."—Peter H. Diamandis, founder of XPRIZE and Singularity University, bestselling co-author of Abundance, Bold, and The Future Is Faster Than You Think In times of stress, we have a choice: we can retreat further into our isolated silos, or we can commit to "going higher together." When external pressures are mounting, and employees are working from far-flung locations across the globe, says bestselling author Keith Ferrazzi, we can no longer afford to waste time navigating the complex chains of command or bureaucratic bottlenecks present in most companies. But when we choose the bold new methodology of co-elevation as our operating model, we unlock the potential to boost productivity, deepen commitment and engagement, and create a level of trust, mutual accountability, and purpose that exceeds what could have been accomplished under the status quo. And you don't need any formal authority to do it. You simply have to marshal a commitment to a shared mission and care about the success and development of others as much as you care about your own. Regardless of your title, position, or where or how you work, the ability to lead without authority is an essential workplace competency. Here, Ferrazzi draws on over a decade of research and over thirty years helping CEOs and senior leaders drive innovation and build high-performing teams to show how we can all turn our colleagues and partners into teammates and truly reboot the way we work together. What's stopping you from doing the best work of your life? People are sick of the old ways of doing business. Despite the enthusiasm that surrounded the emergence of a hybrid working world, it still takes for ever to get anything done. Meetings and emails are almost belligerently incessant. Bureaucracy and hierarchy continue to stifle creativity and talent. So - after literal decades of management theory, as well as multiple shifts in the technological landscape - why can't we do better? Aaron Dignan is an expert in modernizing workplaces. He has built a career teaching top-level companies how to change to suit their workforce better and, in doing so, how to foster genuine innovation, loyalty and growth. In Brave New Work, he uses stories and experiences gathered from that career to lay out a fearless manifesto for a new type of work. This book will show you how to transform your team, department or business from the inside out, making work more adaptable, enjoyable and human. It's packed with tactics and tips for updating your company's operating system: the assumptions so deeply embedded within your organization that you don't even know you're being crippled by them. Learn how to reignite passion and energy throughout your organization, how to retain and attract a dedicated and happy workforce, and, ultimately, how to build a company that runs itself. "A fascinating case for a more engaged government, transformed to meet the challenges and possibilities of the twenty-first century." —President William J. Clinton A rallying cry for revolutionizing democracy in the digital age, *Citizenville* reveals how ordinary Americans can reshape their government for the better. Gavin Newsom, the lieutenant governor of California, argues that today's government is stuck in the last century while—in both the private sector and our personal lives—absolutely everything else has changed. Drawing on wide-ranging interviews with thinkers and politicians, Newsom shows how Americans can transform their government, taking matters into their own hands to dissolve political gridlock even as they produce tangible changes in the real world. *Citizenville* is a timely road map for restoring American prosperity and for reinventing citizenship in today's networked age. Lead a life of adventure, meaning and purpose—and earn a

good living. “Thoughtful, funny, and compulsively readable, this guide shows how ordinary people can build solid livings, with independence and purpose, on their own terms.”—Gretchen Rubin, author of the #1 New York Times bestseller *The Happiness Project*

Still in his early thirties, Chris Guillebeau completed a tour of every country on earth and yet he’s never held a “real job” or earned a regular paycheck. Rather, he has a special genius for turning ideas into income, and he uses what he earns both to support his life of adventure and to give back. Chris identified 1,500 individuals who have built businesses earning \$50,000 or more from a modest investment (in many cases, \$100 or less), and focused on the 50 most intriguing case studies. In nearly all cases, people with no special skills discovered aspects of their personal passions that could be monetized, and were able to restructure their lives in ways that gave them greater freedom and fulfillment. Here, finally, distilled into one easy-to-use guide, are the most valuable lessons from those who’ve learned how to turn what they do into a gateway to self-fulfillment. It’s all about finding the intersection between your “expertise”—even if you don’t consider it such—and what other people will pay for. You don’t need an MBA, a business plan or even employees. All you need is a product or service that springs from what you love to do anyway, people willing to pay, and a way to get paid. Not content to talk in generalities, Chris tells you exactly how many dollars his group of unexpected entrepreneurs required to get their projects up and running; what these individuals did in the first weeks and months to generate significant cash; some of the key mistakes they made along the way, and the crucial insights that made the business stick. Among Chris’s key principles: If you’re good at one thing, you’re probably good at something else; never teach a man to fish—sell him the fish instead; and in the battle between planning and action, action wins. In ancient times, people who were dissatisfied with their lives dreamed of finding magic lamps, buried treasure, or streets paved with gold. Today, we know that it’s up to us to change our lives. And the best part is, if we change our own life, we can help others change theirs. This remarkable book will start you on your way. *Your Company Isn’t Fast Enough. Here’s How to Change That.*

The traditional hierarchical organization is dead, but what replaces it? Numerous new models—the agile organization, the networked organization, and holacracy, to name a few—have emerged, but leaders need to know what really works. How do you build an organization that is responsive to fast-changing markets? What kind of organization delivers both speed and scale, and how do you lead it? Arthur Yeung and Dave Ulrich provide leaders with a much-needed blueprint for reinventing the organization. Based on their in-depth research at leading Chinese, US, and European firms such as Alibaba, Amazon, DiDi, Facebook, Google, Huawei, Supercell, and Tencent, and drawing from their synthesis of the latest organization research and practice, Yeung and Ulrich explain how to build a new kind of organization (a “market-oriented ecosystem”) that responds to changing market opportunities with speed and scale. While other books address individual pieces of the puzzle, *Reinventing the Organization* offers a practical, integrated, six-step framework and looks at all the decisions leaders need to make—choosing the right strategies, capabilities, structure, culture, management tools, and leadership—to deliver radically greater value in fast-moving markets. For any leader eager to build a stronger, more responsive organization and for all those in HR, organizational development, and consulting who will shape and deliver it, this book provides a much-needed roadmap for reinvention. Creativity is a gift that each one of us has. This book will give you guidelines to having creative power in your hands. That way you will stop being a shipwreck at the mercy of your habits, circumstances, others and time, to be the one who is at the helm of your life. This book will accompany you in discovering what your helm is, how to take a strong hold on it and allow it to guide your life; it will open you to listen to your intuition, your inner teacher that stimulates true creativity. It will give you guidelines in order to go from intention to action, from theory to experience. Discover the creativity that gives you the strength to get you out of the prison of a wrong dream. It is a healing and creating energy of a new paradigm. Personal health, the health of the planet and the health of humanity depend on us all working creatively. You can be more creative. Dare to. “This is the management book of the year. Clear, powerful and urgent, it’s a must read for anyone who cares about where they work and how they work.” —Seth Godin, author of *This is Marketing* “This book is a breath of fresh air. Read it now, and make sure your boss does too.” —Adam Grant, New York Times bestselling author of *Give and Take*, *Originals*, and *Option B* with Sheryl Sandberg

When fast-scaling startups and global organizations get stuck, they call Aaron Dignan. In this book, he reveals his proven approach for eliminating red tape, dissolving bureaucracy, and doing the best work of your life. He’s found that nearly everyone, from Wall Street to Silicon Valley, points to the same frustrations: lack of trust, bottlenecks in decision making, siloed functions and teams, meeting and email overload, tiresome budgeting, short-term thinking, and more. Is there any hope for a solution? Haven’t countless business gurus promised the answer, yet changed almost nothing about the way we work? That’s because we fail to recognize that organizations aren’t machines to be predicted and controlled. They’re complex human systems full of potential waiting to be released. Dignan says you can’t fix a team, department, or organization by tinkering around the edges. Over the years, he has helped his clients completely reinvent their operating systems—the fundamental principles and practices that shape their culture—with extraordinary success. Imagine a bank that abandoned traditional budgeting, only to outperform its competition for decades. An appliance manufacturer that divided itself into 2,000 autonomous teams, resulting not

in chaos but rapid growth. A healthcare provider with an HQ of just 50 people supporting over 14,000 people in the field—that is named the “best place to work” year after year. And even a team that saved \$3 million per year by cancelling one monthly meeting. Their stories may sound improbable, but in *Brave New Work* you’ll learn exactly how they and other organizations are inventing a smarter, healthier, and more effective way to work. Not through top down mandates, but through a groundswell of autonomy, trust, and transparency. Whether you lead a team of ten or ten thousand, improving your operating system is the single most powerful thing you can do. The only question is, are you ready? Does the sound of your morning alarm fill you with dread? Do you go through life avoiding mirrors at all costs? Do you struggle to remember the last time you really felt happy? If any of the answers are a resounding 'yes', it's time for you to make that 'Big Leap'...In this accessible, seven-step guide to help you change your life, acclaimed life coach Suzy Greaves offers practical help, through exercises and case studies, to enable and empower readers to make the Big Leap from despondency to fulfilment. This newly updated and completely revised edition of *Making the Big Leap* takes readers beyond just career-changing advice to a series of steps that can be applied to any aspect of their lives. Suzy also shares new insights and knowledge from recent personal changes and developments in her life. "Making the Big Leap" (1st edition) was voted one of the Top 10 life-changing books by the "Independent on Sunday".

Is your business struggling to stay afloat? Are you overwhelmed by the challenge of building an organization that can be a market leader? Well, now is the time to stop going in circles—find a new direction and re-imagine your company. In this hard-hitting guide, renowned international corporate consultants and professors Leo Hopf and William Welter show how to breathe new life into your firm. Using revealing case studies from Seagate to Harley-Davidson, they offer such key strategies as: Repackaging products to widen the range of your target demographic Revising your profit model to improve your margins Moving up- or down-market to attract new customers Using core competencies to enter new markets Conducting business at a different time to reach new customers You'll need to take a risk to reap the rewards. But this blueprint for growth will supply you with the confidence to start on a different path. So forget the same-old tired tactics. Instead, make things happen by making over your business! It's crucial to the livelihood of your enterprise, and Hopf and Welter give you everything you need to get it right. Our health care system is crippled by desperate efforts to prevent the inevitable. A third of the national Medicare budget--nearly \$175 billion--is spent on the final year of life, and a third of that amount on the final month, often on expensive (and futile) treatments. Such efforts betray a fundamental flaw in how we think about healthcare: we squander resources on hopeless situations, instead of using them to actually improve health. In *Predictive Health*, distinguished doctors Kenneth Brigham and Michael M.E. Johns propose a solution: invest earlier--and use science and technology to make healthcare more available and affordable. Every child would begin life with a post-natal genetic screen, when potential risk--say for type II diabetes or heart disease--would be found. More data on biology, behavior, and environment would be captured throughout her life. Using this information, health-care workers and the people they care for could forge personal strategies for healthier living long before a small glitch blows up into major disease. This real health care wouldn't just replace much of modern disease care--it would make it obsolete. The result, according to Brigham and Johns, will be a life defined by a long stay at top physical and mental form, rather than an early peak and long decline. Accomplishing this goal will require new tools, new clinics, fewer doctors and more mentors, smarter companies, and engaged patients. In short, it will require a revolution. Thanks to a decade-long collaboration between Brigham, Johns and others, it is already underway. An optimistic plan for reducing or eliminating many chronic diseases as well as reforming our faltering medical system, *Predictive Health* is a deeply knowledgeable, deeply humane proposal for how we can reallocate expenses and resources to prolong the best years of life, rather than extending the worst. If you knew you couldn't fail, what is the greatest thing you would dare to dream? Is the job you now have the one you've always wanted? Do you work with the kind of people you'd like to work with? As personal success expert Brian Tracy can attest, it's not until you deal with the dissatisfactions of the present that you can move onward and upward to create the wonderful future that is possible for you. And it is possible. In *Reinvention*, Brian Tracy reveals how every one of us is engineered for success, and with the right focus, can remake ourselves and put an end to the chronic stress, unhappiness, and dissatisfaction we might feel in our careers and lives. This unique, life-altering book gives readers an interactive series of exercises they can use to focus on what they really want for themselves, and:

- take control of their careers

- dramatically improve their earning ability
- develop the self-confidence to take the kind of risks that lead to rapid advancement

The world around us is in a constant state of reinvention, from technology, to careers, to family. It's easy to struggle in the midst of change, and each season brings new challenges. But we need reinvention: the kind that leads us to new fulfillment and our calling in Christ. To Reinvent ourselves in Christ means a transformation in our hearts, souls, bodies, and minds. And we can achieve this by biblically exploring and answering the questions: What do you want? What do you have? What will you do? and Why will you do it? Let the baggage of the past become history today. Let God renew your hope, and you will experience the joy of living like never before. No matter what has happened, and no matter where you are on this journey, Reinvent will help you start fresh and love life! “When men are the best versions of themselves, the world is a better place.” -Kevin Samuels

Shock jock, Instigator, woman hater, old school thinker, manhood specialist, image consultant, representer of manhood, fashion enthusiast, mentor or dating guru were just a few of the many names and titles given to the man named Kevin Samuels. This is a man who rose to superstardom quickly with his “You’re average at best video” that went viral over the Christmas holidays of 2020. Just saying his name in groups of people will either get them upset by his remarks on women or praised for his eye opening beliefs on high value manhood, the modern woman and the women who want high value men. Either way you chose to see his views you’re entitled to your opinion of the man. But before you judge his message as a whole, be sure that you dedicate your time for understanding, before you come to a full opinion of his beliefs, thoughts and concepts. To help you see his words objectively, this book was created to remove all of the emotions that Kevin Samuels manipulated to spread his beliefs in hopes that the reader can get a clearer representation of his message and his intentions. In the words of Kevin Samuels “Today's dating culture has become toxic. We have gotten to the point that for the most part we don't know how to relate to each other. We know how to swipe left, swipe right, hook up and move on.” So at the end of the day Was Kevin Samuels Right? Read his thoughts, words, beliefs and opinions and judge for yourself. Here's just a few of the topics we'll discuss together: -Why Did What Kevin Said Bother So Many People? -What It Means To Be A High Value Man -A High Value Man's Keys To The Game -Why Most Women Aren't Fit For High Value Men? -Why Single Mothers Can't Get High Value Men? -Do Women Want High Value Men Or Just The Lifestyle? -Only These Women Deserve High Value Men -The Things Your Father Should Have Taught You -Why Being A Good Guy Just Isn't Good Enough? -The 5 Things Women Notice About A Man -The 3 Things Women Just Don't Understand -What Makes A High Value Woman? -Whats The BIG Issue Concerning Modern Women? -Do Women Gain Value With Time? -Why Women Love Dating Monsters? -How Broken Women Leave A Trail Of Broken Men -Why A Lying Woman Needs To Remain Alone And so much more..... Every time humanity has shifted to a new stage of consciousness in the past, it has invented a new way to structure and run organizations, each time bringing breakthroughs in collaboration. The organizations researched for this book have already "cracked the code." Their founders have fundamentally questioned every aspect of management and have come up with entirely new organizational methods. This book describes in practical detail how organizations large and small can operate in this new paradigm. Welcome to my book about how to successfully invent and reinvent yourself throughout the chapters of your WorkLife Story. Here is a preview of what's inside, along with the main ideas and the meaning behind these. WorkLife is our life at work, where we spend one third of our lives. It is also the impact our work has on our life outside of work, and the impact our life outside of work has on our work. All areas of our life in and out of work are so intrinsically linked, they cannot be separated, nor do I believe should they. I believe WorkLife needs to be considered holistically. In a world where things are always changing, there will be times when your WorkLife circumstances change, or you change. You'll reach points where you'll want and need to think about who you are and where you're at in your WorkLife, and then figure out whether or not it's time for a refresh, or a total change in direction. Inventing or reinventing yourself, while challenging, is absolutely possible, as you will come to learn through the stories about to unfold. In this book I tell six stories: 1. How She Applied to Work for an Organisation She Aspired to Be Part of when She Didn't Meet the Specified Criteria of the Position Advertised: Orla's story of how in writing a letter that acknowledged her shortcomings, she also projected confidence in herself and her abilities. 2. How a Speculative Approach Helped Him Reinvent Himself: Sean's story of how he approached a new industry and sector, not for an advertised position, but with a letter of enquiry about future positions, in which he let them know why he was the right person for them. 3. Life After Redundancy – What Next: Tim's story of how he turned a rather unusual hobby into a viable business venture, from where he began a new chapter in his WorkLife. 4. Stories of Reinvention and Christmas Puddings: Fanny Craddock and Mrs Beeton's stories as perhaps the queens of reinvention, in carving out new and different chapters throughout their WorkLives. 5. Most Significant WorkLife Transition – From Supreme Judge to Nomadic Social Media Marketer: Katie's story of how she actively shaped her WorkLife so that the choices she made brought about the

satisfaction she sought. 6. A Tale of Invention and Reinvention: Madame Clicquot's story of how extreme external forces drove her need to continuously invent and reinvent herself not only for her success but for her survival: I share the exercises that helped to work through these challenging situations to resolve the dilemmas. I present these exercises as the following assignments for you to work through: Bridge the Gap Assignment This assignment is to help you to consider opportunities that you aspire to, that are a stretch for you to apply for, and to take a strategic approach to put your best self forward. Develop a Practice of Continuous Self-Feedback Assignment This assignment is to help you to project a confidence in yourself as a lifelong learner. Develop a Practice of Insightful Self-Questioning Assignment This assignment is to help you to always strive towards knowing what you need to do to keep on top of your professional and personal development needs. Are You in the Right Place in Your WorkLife Journaling Assignment This assignment is to help you to actively shape your WorkLife, so that the choices you make bring about the satisfaction you seek. Three Steps in Taking a Risk Assignment This assignment is to help you to consider the information you need in any venture you're considering undertaking. DIV Through his travels, Alvin Slaughter has seen a pervasive weariness and discouragement in the body of Christ. He knows the signs because he has been there himself. Despite being in church all of his life, knowing every song and countless scriptures, Slaughter struggled with fear, depression, financial failure, and marital strife. Today, he is on the other side of the failures and self-doubts. He's come to know that the life of faith is real, and he wants others to learn from his experiences. In Reinvent Your Life, he uses his story as a backdrop to give you the tools you need to overcome whatever troubles they are going through. His casual storytelling and captivating humor allow him to transcend barriers of every kind and speak to the challenges of life that are common to all. /div You're on demand 24/7, juggling children, home management, work, relationships, and never-ending to-do lists. Manifestos, Reinventions & Declarations is a commentary on this unprecedented moment in history. This is a book about Now. The New Now we're living in and going through. We're living in a time when a day can feel like it goes on forever. And since billions of us are going through the same experience at the exact same moment in history, we can all be shifting the world culture together. With a global pandemic rolling across and ravaging our land, we can more easily understand how historic and pre-historic events actually happened. Now, with deeply embedded wrongheaded cultural norms being pushed against as never before, we can also understand how societal shifts sometimes happened in past centuries, within months, days, or hours, or when a tipping point was finally reached. Collectively, in the back of our minds, a part of us knew a massive shift could or would eventually happen. We've all been dreaming of, or expecting some type of change to happen. Although we weren't expecting anything as drastic and cultural/world shifting as what did happen. We all want to change our own lives for the better, and now it truly feels like it should also include the lives of others. Without time to plan for this, it felt like it happened in an instant. So, if anyone needed any proof, yes, we are definitely all one. If we believe we possess the power to change ourselves, then the same has to be true for positively shifting the culture. Transforming our culture into a more empathetic, generous, and tolerant culture is worth the effort. And this is the ideal historic moment to do so. If not now, when? The Journey to Organizational Transformation ?Given

the rate of change that we have experienced and will continue to see in the world, it's a challenge trying to stay on top of everything. Organizations must consider revising and possibly scrapping decades-old habits, processes, and their very ways of thinking and operating. In so doing, organizations can literally reinvent themselves. Transformation requires much more than simply obtaining the latest technology, plugging it in, and sitting back to watch reinvention take place. From top to bottom, organizations will be compelled to change entire mindsets, attitudes, and assumptions about how they operate, how they can grow, and even the very reason for their existence. This book introduces readers to ideas, concepts, and a comprehensive framework (LIFTS) that they can use to better position themselves and their organizations to reap the greatest number of benefits that business and digital transformation can afford. It's a journey rich with promise that explains complex concepts in an understandable common language. The book is divided into three distinct sections. The First section, "Why? The Case for Business Transformation in a Hyper-Digital Era," makes the argument for organizational reinvention—from the changing nature of consumers to shifting workforce priorities to the necessity for greater organizational security. The second section, "Transformation via Digitalization—Necessary Steps," examines actions necessary to prepare for transformation, including overcoming significant obstacles, recognizing the essential value of leadership, and forecasting what your organization is likely to become in the future. The final section, "What to Do: Navigating with LIFTS," offers a comprehensive discussion of a five-step process geared to guiding your company through its transformation. Using the acronym LIFTS — learn, investigate, formulate, take off, and study—you'll learn what goes into a successful transformative effort, including elements that, if overlooked, can sink otherwise solid planning. REINVENT is the result of the author's personal and professional journey — one that is made possible by three decades of work with colleagues, customers, partners, academics, and industry experts from around the globe.
