**Drivers on Drivers** Aug 15 2022 Drivers on Drivers features some of the greatest names in motor racing speaking candidly about their biggest rivals as well as their heroes, teammates and friends. It

is a unique concept, with those interviewed ranging from legends of the 1950s such as Tony Brooks and 1960s rally icon Paddy Hopkirk, to Derek Bell, Mika Häkkinen, and current superstars such as Sir Lewis Hamilton. Each driver is in conversation with a leading motorsport writer or broadcaster, and the book is illustrated with stunning photography throughout. Thirty-one revealing interviews, featuring motorsport legends opening up about their fellow drivers and offering unique insights into what separated the great from the good, who they looked up to and learnt from, and who to avoid on-track. Interviews include Tony Brooks on Stirling Moss, Jackie Stewart on Jim Clark, Gerhard Berger on Ayrton Senna, Mark Webber on Sebastian Vettel, and many more...Interviewees include eight Formula One World Champions, nine winners of the Le Mans 24 Hours, and 13 Grand Prix winners. Interviews conducted by Philip Porter along with a team of leading motorsport writers and broadcasters - Mark Cole, Ben Edwards, Louise Goodman, Simon Taylor, David Tremayne, Peter Windsor and Ian Wagstaff. Contains stories of tragedy and humour, triumph and disaster, as these great names give personal insights into motor racing's deepest friendships and fiercest rivalries. More than 100 superb photographs illustrating pivotal career moments, on-track battles, and candid shots of their interactions with fellow drivers.

*Transport Revolutions* Feb 09 2022 *Transport Revolutions: Moving People and Freight without Oil* sets out the challenges to our growing dependence on transport fuelled by low-priced oil. These challenges include an early peak in world oil production and profound climate change resulting in part from oil use. It proposes responses to ensure effective, secure movement of people and goods in ways that make the best use of renewable sources of energy while minimizing environmental impacts. *Transport Revolutions* synthesizes engineering, economics, environment, organization,

policy and technology, and draws extensively on current data to present important conclusions. The authors argue that land transport in the first half of the 21st century will feature at least two revolutions. One will involve the use of electric drives rather than internal combustion engines. Another will involve powering many of these drives directly from the electric grid - as trains and trolley buses are powered today - rather than from on-board fuel. They go on to discuss marine transport, whose future is less clear, and aviation, which could see the most dramatic breaks from current practice. With its expert analysis of the politics and business of transport, *Transport Revolutions* is essential reading for professionals and students in transport, energy, town planning and public policy.

*A Man Without Love* Aug 03 2021 All Bill wanted out of life was to be a normal bloke, and part of someone's life... preferably a female's life. On first glance, a reader might think this book is just another painful and sad love story, but that is not so. Bill was a walking live example of avoidable human disaster and bad luck... a sort of modern-day Medusa with an unforeseen hilarious side. The love part of this story was much more challenging, especially for all those helpful mates in the bush who had made a vow to help resolve Bill's biggest problem... finding a woman to love him. Then there are all the other interesting stories that just sort of happened around Bill... Remember, these are all true stories. Please do enjoy the reading as I did in writing them.

The Complete Book of the World Rally Championship Sep 16 2022 For 30 years some of the most talented and bravest drivers have battled across the continents of the world to claim what is arguably motorsport's toughest prize: the World Rally Championship. Now a multi-million dollar, global technology battle and terrestrial television phenomenon played out over the frozen wastes of

Finland, the dusty plains of Australia and the sun-kissed mountain roads of Corsica, the WRC has reached its 30th birthday. This book celebrates that important milestone and paints an exhaustively detailed picture of the people and personalities who have shaped this great sport. The Complete Book of the World Rally Champions provides a biographical account of the 65 men who have won at least one World Championship Rally since 1973. The biographies are compiled by the sport's leading writers and historians and complemented by stunning photography. The book includes a detailed and accurate statistical career record of each driver, plus highlights of all the significant cars.

*The Michael Turner Collection* Jul 02 2021 For over 50 years, renowned motor sport and aviation artist Michael Turner annually produced a set of paintings depicting stand-out moments from that year's Formula One and sports car racing season. The paintings were reproduced as a set of Christmas cards and made available through Michael's own company, Studio 88, which he formed in 1963. Over the years, these cards became highly-collectable to the extent that, in 1992, Michael's wife, Helen, formed a Collectors' Club which quickly gained a worldwide membership. Now, for the first time, the entire collection of cards produced between 1960 and 2016 is published together in the book, 'The Michael Turner Collection', written by Chas Parker in conjunction with Michael.

The Crash Palace Jan 16 2020 SHORTLISTED FOR THE RELIT 2022 NOVEL AWARD A joy ride set on a crash course with the past. Audrey Cole has always loved to drive. Anytime, anywhere, any car: a questionable rustbucket, a family sedan, the SUV she was paid to drive around the oil fields. From the second she learned to drive, she's always found a way to hit the road. Years ago, when she abandoned her oil field job, she found herself chauffeuring around the Lever Men, a B-list band relegated to playing empty dive bars in far-flung towns. That's how she found herself at the Crash Palace, an isolated lodge outside the big city where people pay to party in the wilderness. And now, one night, while her young daughter is asleep at home, Audrey is struck by that old urge and finds herself testing the doors of parked cars in her neighbourhood. Before she knows it, she's headed north in the dead of winter to the now abandoned Crash Palace in a stolen car, unable to stop herself from confronting her past The Crash Palace is a funny, moving, and surprising novel by the author of the Amazon First Novel Award-nominated The Milk Chicken Bomb. Audrey is unlike any character you've met before, and you'll love being along for the ride.

*Lancia Rally Group B* Jan 08 2022 The Group B cars marked one of the most thrilling yet most tragic periods in the history of world rallying and beyond. The 037, the S4, the EVC and the ECV2, "ephemeral player" of a still-born Group S, were the unforgettable protagonists of the 1982-1986 seasons that for the Lancia marque were constellated by a series of World, European and Italian titles, but also by terrible accidents that cost the lives of Attilio Bettega, Henri Toivonen and Sergio

Cresto. Sergio Remondino, a historic journalist and great expert in the multifaceted field of rallying, traces that unforgettable era, year by year, through a text rich in anecdotes and thanks to the contribution of the engineer Sergio Limone, one of the artificers of the Group B cars. This invaluable book is completed by the evocative images of Reinhard Klein, one of the most successful rallying photographers.

*A-Z Japanese Performance Cars* Feb 26 2021 Since the late 1980s Japanese motor manufacturers have been producing a line of high-performance cars that has found a ready market around the world. The combination of their abilities on the road, their traditional Japanese build quality and their reasonable pricing has captivated enthusiasts. Yet there has never been a single source in

which to read and find out about these giants of the motoring world. Now, this exciting book profiles all Japan's greatest performance models, detailing their history, technical make-up and potential for speed. Each car is also rated for its desirability, tuneability and availability. At last, here is a book that fills a yawning gap: a reliable source of information about all the most significant and fascinating Japanese performance cars, many of which have never been written about in English before.

**The Book of the Honda S2000** Apr 11 2022 Researched and written in Japan with the full co-operation of the factory, here in definitive detail is the story of the Honda S2000 - a series of open two-seaters that built on the success of the NSX, helping the company justify its on-track exploits with a proper line of sporting machinery. Successful immediately, the S2000 models defended Honda's honour on the tracks, but it was in the showrooms where the S2000 excelled. After a major face-lift, it was eventually killed off in 2009, but is as popular today as it ever was as a modern classic for enthusiasts.

**Lost Car Companies of Detroit** Nov 25 2020 Among more than two hundred auto companies that tried their luck in the Motor City, just three remain: Ford, General Motors and Chrysler. But many of those lost to history have colorful stories worth telling. For instance, J.J. Cole forgot to put brakes in his new auto, so on the first test run, he had to drive it in circles until it ran out of gas. Brothers John and Horace Dodge often trashed saloons during wild evenings but used their great personal wealth to pay for the damage the next day (if they could remember where they had been). David D. Buick

went from being the founder of his own leading auto company to working the information desk at the Detroit Board of Trade. Author Alan Naldrett explores these and more tales of automakers who ultimately failed but shaped the industry and designs putting wheels on the road today.

**How to Drift** Oct 25 2020 Drifting is the newest, most exciting motorsport we have seen in the United States since the invention of the limited slip differential - it may be the most exhilarating contest of man and machine ever devised! From the winding mountain passes and desolate industrial roads of Japan, this unique sport of sliding a car sideways through a series of corners has become a huge hit in America. Drifting, or dorifto as they call it in Japan, extracts the most exciting aspect auto racing, extreme oversteer, and makes it the focus of an intense and visually intoxicating new motor sport. **How to Drift: The Art of Oversteer** is a comprehensive guide to both the driving technique and car setup required for drifting. The author defines various precision driving techniques used in drifting and explains them from a racecar driver's point of view. **How to Drift** illustrates the finer elements of car control required in drifting with technical descriptions, detailed line art and intense photography. This book even includes a budget drift car build-up with detailed suspension, chassis, and engine modifications that will help you turn your economy car into a drift machine— on top of that, there's a chapter detailing the finer aspects of an SR20DET swap!

365 Cars You Must Drive Dec 27 2020 What began as a solution for transportation has evolved into a desire for speed, luxury, personal expression, and freedom. For many, the thrill of the drive has eclipsed the pure utility of the automobile. And the pursuit of that thrill is the driving force behind 365 Cars You Must Drive. From the Ford Model T to the Porsche Carrera GT, there are certain cars that any self-respecting auto enthusiast just has to know—and experience from the driver's seat. With homage to the greatest cars and good-natured mockery of the strangest, authors Matt Stone and John Matras detail which cars to drive and why, how to get behind the wheel, where to drive them, and who to invite along for the ride. Each entry contains a colorful spec box noting the car's claim to fame, a Did You Know? factoid, the author's clever suggestions for "The Perfect Passenger" and the "Soundtrack" coming out of the speakers, Behind the Wheel notes, and a "Perfect Drive" for the marque or model covered. Engine details, production information, the price when it debuted and the collectible price now - all of it adds up to at-a-glance fun reading to go with informative essays on each car, archival and full-color photos, and more. Profiles of successful built-up engines show the reader examples of what works and helpful guidance for choosing the path of their own engine build.

**Ford Escort RS Cosworth & World Rally Car** Mar 18 2020 The Escort RS Cosworth, which started rallying in 1993, was one of the most ingenious designs of all time, and eventually became Ford's most successful since the legendary Escorts of the 1970s. Because it was smaller, lighter, and more nimble than any of the Sierras, the combination of Cosworth power, four-wheel-drive transmission, and an effective aerodynamic package made it a Rally Giant in all conditions. With five World victories in its first season, and success all around the world in later years, it was seen in every continent, in all conditions. To meet a change in regulations, the Escort World Rally Car took over in 1997, and also enjoyed years of success.

Driving from Japan May 20 2020 This study chronicles the success of the Japanese car in America. Starting with Japan's first gasoline-powered car, the Takuri, it examines early Japanese inventors and automotive conditions in Japan; the arrival of Japanese cars in California in the late 1950s; consumer and media reactions to Japanese manufacturers; what obstacles they faced; initial sales; and how the cars gained popularity through shrewd marketing. Toyota, Honda, Datsun (Nissan), Mazda, Subaru, Isuzu, and Mitsubishi are profiled individually from their origins through the present. An examination follows of the forced cooperation between American and Japanese manufacturers, the present state of the industry in America, and the possible future of this union, most importantly in the race for a more environmentally-sound vehicle.
