Principles of Microeconomics 18 2022 This third edition of the highly successful and well-regarded Australian adaptation of Frank and Bernanke's *Principles of Microeconomics* by Sarah Jennings (University of Tasmania) takes a rigorous, theoretical treatment that is suitable for mid to high-level courses but is nonetheless easy-to-follow and logical. It is full of practical examples and in-chapter exercises that allow students to check their understanding of the important concepts as they progress through the chapter. Throughout this book you will find new ideas introduced with simple examples, followed by applications showing how they work in familiar settings. The features within each chapter are designed to engage and reinforce the understanding of these ideas.
